

Hien

DC INVERTER AIR TO WATER HEAT PUMP

The Ecoforce Series provides heat through heating distribution systems like radiators, underfloor heating, fan coils, or air conditioners. It offers reliable heating, cooling, and domestic hot water year-round. The heat pump automatically adjusts and operates optimally in heating or cooling mode depending on the season and air temperature for energy savings. It suits various applications including space heating and domestic hot water for residential and commercial projects.

42 YEARS EXCELLENCE

Hayleys Generators

Seychelles Most Trusted Power Empowering Your Energy Needs

Medium Voltage Solution from Hayleys

At Hayleys we deliver a comprehensive range of Medium Voltage solutions with including Oil type & Dry type Transformers, MV & HT panels and MV Cables.

- Oil type & Dry type Transformers up to 1200 MVA and 800 kV.
- AIS, GIS and RMU panel.
- MV and HT Cables.
- Design, Installation, Testing & Commissioning of MV systems.

Comprehensive Generator Services

We provide 24/7 after-sales maintenance services for industrial power generators, medium voltage systems, industrial pumps, motors, drives, and all other MEP-related systems. In addition, we maintain an ample spare parts inventory for many of the world's leading brands, including Perkins, Cummins, Volvo, Stamford, Leroy-Somer, Deep Sea, Grundfos, and more.

- 24x7 Breakdown Support - Anytime, Anywhere
- Expert in Engine Maintenance & Alternator Services
- Fuel Pump and Injector Repairs
- Troubleshooting & Repair Works - from minor fixes to major issues
- Fabrication & Soundproofing Work
- Load Testing with resistive load banks for efficiency
- Spare Parts support for any engines

Stay powered with reliability and expertise.
Experience why Hayleys Generators is Seychelles most trusted power partner!

Our Products & Solutions

- Generators from 1kVA to 3000kVA
- 24/7 for unmatched support
- Credible warranty for peace of mind
- Limitless spare parts availability
- Free technical support & on-site inspections
- Engineering support for precise load calculations
- Free consultancy for installation & testing
- Remote monitoring solutions for convenience
- Synchronising, ATS panel, soundproofing and fuel tank solutions
- Mobile trailer options for portability

Power Distribution

At Hayleys Aventura we deliver all types of Power Distribution Solutions from various products such as Schneider, EAE, Poly Cabs etc.

Our Products

- Sandwich Bustrunking
- Compact air Bustrunking
- MV cables
- LV cables
- Cable Trays & Ladders

GRP Tanks

At Hayleys Aventura we deliver all the type of water tanks from PipeCo from South Korea and Dezhou Huili from China.

Our Products

- Non Insulated GRP Water Tank
- Insulated GRP Water Tank
- GRP Cylindrical Water Tank
- HDG Steel Water Tanks
- Eazy Water Tank

Reliable Motors and Variable Frequency Drives to Optimise Your Performance

At Hayleys Aventura, we deliver a comprehensive range of motors, pumps, and power control solutions for industrial, commercial, and utility sectors.

Partnering with globally recognized brands, we provide reliable and energy-efficient solutions tailored to your needs.

Our Products

- Motors & controls
- Enhancing energy efficiency and power quality with advanced solutions
- Energy-efficient motors
- Soft starters (Aucom)
- Variable speed drives (ABB, Invertek)
- DC drives
- Harmonic filters (Merus power, Enerdoor)
- Pumps for diverse applications
- Delivering submersible pump solutions for water utility needs

At Hayleys we deliver a comprehensive range of LV panels including, Synchronized panels, ATS panels, MDB panels and DB panels with partner of C&S, ABB, Schneider, and Socomec breakers.

- Supply and installation of ATS panels
- Supply and installation of Synchronized panels
- Supply and installation of MDB panels.
- Supply and installation of DB panels.

Harness the possibilities in every drop with our expertly engineered, high-efficiency pump solutions for all purposes.

- **Heating and air conditioning** - Reliable and versatile circulator pumps & systems.
- **Wastewater management** - Drainage and effluent pumps for raw sewage and wastewater treatment.
- **Groundwater and domestic water supply** - Submersible tube well pumps for groundwater supply and pressure pumps for domestic use.
- **Industrial pressure boosting** - Enjoy constant water pressure, enhanced energy efficiency with compact booster pumps.
- **Industrial applications** - Pumps and pump systems for industrial equipment, processes and building utilities.
- **Dosing and disinfection** - Dosing pumps for chemical injections in wastewater treatments and industrial processes.
- **Renewable energy systems** - Energy-efficient solar or wind powered pumps.

Products are manufactured to the highest standards in the fire fighting market

- Centrifugal Fire Pumps Split-Case Type: UL& FM approved, Flow range:300gpm-8000gpm
- Centrifugal Fire Pumps Horizontal End Suction Type: UL&FM approved, Flow range:100gpm-2500gpm
- Centrifugal Fire Pumps In-Line Type:Flow range:50-1500gpm
- Centrifugal Fire Pumps Vertical Shaft Turbine Type:UL&FM approved, Flow range:100gpm-7500gpm
- Diesel Engine Fire Pump Drivers: UL&FM approved, Power range: 39-1207HP
